

Deployment Guide for MB-12X Pro

Introduction

Yealink MB-12X Pro is a pluggable optical zoom camera module suitable for the MeetingBoard Pro series. It supports manual adjustment (PTZ), camera preset, Auto Framing, Speaker Tracking, IntelliFocus, PiP Mode, and so on. After installing the external camera, the MeetingBoard will Pro automatically switch to using the external camera.

💡 After installation, the external camera will be automatically updated.

Before You Begin

For the compatibility of the external cameras with the Yealink MeetingBoard series, refer to [Rooms Accessories Compatibility Lists](#).

Installation

For how to install the camera on the MeetingBoard Pro, refer to [Yealink MB-12X Pro Quick Start Guide](#).
